Dear Mr. Gary Tremolada

I want to express my sincerest gratitude for your hard work this year. You should be congratulated for the innovative lesson plans you created.

Owing to your professionalism I learned a lot. Being your ordinary student I just want to give you the recognition that you deserve for what you are giving.

"The course has expanded my knowledge and skills making my input into decision-making far more credible than ever before. I find myself coming up with new ideas, better concepts and am always striving to make each of my job roles more efficient and effective. The course has not only improved my knowledge and skills, but also my confidence - I find myself taking much more pride in my work and getting much better results because of it. In the long term this course will help me to become much more employable than I am right now which will give me far more opportunities and options with careers throughout my life."

It was a real pleasure to be in your class.

Thank you so much.

Sana Dalou
